## Vorbemerkung

Der vorliegende Bericht enthält den fortgeschriebenen Bevölkerungsstand der Gemeinden Niedersachsens zum 31.12.2009. Grundlage für die Fortschreibung ist der am Volkszählungstichtag 25. Mai 1987 ermittelte Bevölkerungsstand nach dem Hauptwohnungsbegriff (§12 (2) MRRG i. d. Fassung vom 19. April 2002, BGBl. I S. 1342). Des Weiteren sind die der Bevölkerungsfortschreibung zugrunde liegenden Ergebnisse der natürlichen Bevölkerungsbewegung (Geburten und Sterbefälle) und der räumlichen Bevölkerungsbewegung (Zu- und Fortzüge) im Jahr 2009 ausgewiesen. Von der amtlichen Statistik werden alle Bewegungsfälle nach dem Hauptwohnungsbegriff ausgewertet.

Bei der räumlichen Bevölkerungsbewegung werden Umzüge innerhalb einer Gemeinde (Ortsumzüge) nicht erfasst. Für die Einheitsgemeinden und Mitgliedsgemeinden von Samtgemeinden sind die gemeindegrenzüberschreitenden Zu- und Fortzüge ausgewiesen. Für die Samtgemeinden sind die über die Samtgemeindegrenze

gehenden Wanderungsfälle aufgeführt, Umzüge von Mitgliedsgemeinde zu Mitgliedsgemeinde innerhalb einer Samtgemeinde sind darin nicht enthalten. Die ausgewiesenen Zu- und Fortzüge der Landkreise beinhalten nicht die Wanderungsbewegungen innerhalb der Landkreise (Kreisbinnenwanderung).

Hinweise: Durch bestandsrelevante Veränderungen, die einen bereits abgeschlossenen Berichtszeitraum betreffen, kann es vorkommen, dass die Aufrechnung des letzten nachgewiesenen Bevölkerungsstandes mit den dargestellten Bevölkerungsbewegungen nicht den Bevölkerungsstand zum nachgewiesenen Stichtag ergibt.

Die den Wanderungsdaten 2009 zugrunde liegenden Meldungen der Meldebehörden enthalten zahlreiche Melderegisterbereinigungen, die infolge der Einführung der persönlichen Steuer-Identifikationsnummer durchgeführt worden sind. Die Ergebnisse sind daher nur eingeschränkt aussagekräftig.
